PRICE LIST

1916-1917

CATALOGED

CALIFORNIA NURSERY COMPANY, Inc.

CATALOGED

NILES, CALIFORNIA

TO CORRESPONDENTS

1st. This catalog cancels all previous prices, either in special lists, offers or catalogs. This rule will be strictly observed.

ORDERS.

2d. Order early so that you may get the varieties and grades you prefer. All orders should be legibly written on a separate sheet and not mixed up in the body of the letter, thereby saving us a great deal of trouble and tending to prevent mistakes. Never write on both sides of paper.

QUANTITIES AND PRICES.

3d. The articles in the following list will be furnished at the annexed prices ONLY when the quantity specified shall be taken. Five hundred, however, will be furnished at the thousand rate, fifty at the hundred rate, and five at the ten rate. The absence of a thousand, hundred or ten rate means in each case that the next best rate is the lowest we can make. In no case does this mean so many trees of assorted classes, but refers only to ONE CLASS of assorted varieties; for instance, 5 apples, or 5 pears, or 5 plums, of different varieties, but not 2 apples, 2 pears and 1 plum.

SUBSTITUTIONS.

4th. Where particular varieties are ordered, and particular ages and sizes of trees, kind of stock, etc., it should be stated whether and to what extent substitution will be allowed in case the order cannot be filled to the letter. Where no instructions in this respect accompany the order, we shall feel at liberty to substitute other varieties as nearly similar as possible. If the selection of the varieties is left entirely to us, we shall endeavor to send only such sorts as are acknowledged to give general satisfaction.

PACKING.

5th. All trees and plants are carefully labeled, and securely packed in the best manner, for which a moderate charge sufficient to cover cost of material only, will be made; but no charge is made for the delivery of packages to the railroad or express offices at Niles.

EXPRESS OR FREIGHT.

6th. Always state which way you want your order shipped and give explicit directions for marking packages.

When it is left for us to choose the mode of conveyance, we will exercise our best judgment, but as all articles are at the risk of the purchaser after being shipped, we must not be held responsible for any loss or delay that may occur through the negligence of the transportation companies.

GUARANTEE, ETC.

7th. We warrant all trees and plants to be good, thrifty and true to label, but having no control over them after delivery to the transportation companies, or over the planting and care after they are received by the buyer, we will not be responsible in any other direction than as stated, and accordingly, if any tree or plant should prove untrue to kind, we will either replace the same or refund the amount paid; but in no case will we be liable for any sum greater than that originally paid, and this statement is due notice to buyers of the extent of our responsibility for trees and plants after delivery of the same shall have been accepted by the buyer.

REPLACING.

8th. For the reason that we have no control over the planting, pruning and care of the trees after they leave our hands, we will not under any circumstances replace any trees that may die.

ERRORS AND SHORTAGES.

9th. Customers are requested to notify us immediately should any error or shortage occur in filling their orders so we may rectify it at once. Any such claim must be made within one week after receipt of shipment; otherwise it will be assumed that the goods are satisfactory and in accordance with invoice.

C. O. D. AND STRANGERS.

10th. Orders from unknown correspondents must be accompanied by the cash or satisfactory reference. Orders to be sent C. O. D. must be accompanied by at least one-half the amount in cash; otherwise they will not receive attention.

REMITTANCES.

11th. Remittances may be made by check or draft on San Francisco banks, Express or Postoffice money order on Niles, by registered letter or cash by express prepaid.

WRITE PLAINLY.

12th. Always be sure to write your name, Postoffice address and Express or Freight office plainly so no mistake can be made by us.

PARCEL POST.

13th. We strongly advise that it is poor practice to send live plants in the mails, and therefore hope no one will order goods shipped in that way.

All communications should be addressed to

PRICE LIST

SEASON 1916-1917

ALL PRICES QUOTED ARE NET AT NURSERY, WITH
PACKING ADDED AT ACTUAL COST

INDEX AT END OF PRICE LIST

Fruit and Ornamental Trees

Evergreens, Palms, Shrubs, Roses, Etc.

We present herewith our price list for the coming season. Our nurseries are the most complete on the Pacific Coast. Our shipping facilities are unexcelled both for domestic and foreign business. For many years we have led in introducing and testing, under California conditions, the most promising foreign and other new varieties of fruit. We have in actual bearing here at Niles our own trees of every variety we offer for sale. Probably no other nursery can cut their buds from their own fruiting trees. Our buds and clons are taken from these bearing trees, cut and distributed by one man, making the mixture of varieties wellnigh an impossibility. The unequalled reputation which our trees have, not only on the Pacific Coast, but in almost every country in the world, is an indication of the great care we exercise in every detail of our chosen line of work.

All interested parties, whether intending to purchase or not, are invited to visit the nursery, and if we are notified of time of arrival at Niles, by Southern Pacific Railway, and number of persons coming, will have conveyance at station to meet them.

CALIFORNIA NURSERY COMPANY, INC.

Niles, December 1, 1916.

OFFICERS.

W. H. Landers, President.

A. C. Hammond, Vice-President.

F. W. Hosmer, Secretary.

W. V. Eberly, Manager.

Central National Bank, Oakland, Depository.

HINTS ON TRANSPLANTING

The many excellent treatises on Fruit Culture which have appeared within the past few years—one or more of which should be in the hands of every person intending to plant—render it almost unnecessary to give any directions in that line; yet we are so frequently asked for advice in this way, that we offer a few general remarks.

The situation of the orchard having been decided on, the ground should be deeply plowed, subsoiled and thoroughly pulverized. The holes should be dug at least a foot larger in every direction than actually required by the roots when spread out in their natural position. In planting, the top soil should be broken down into the hole, and worked carefully in between every root and fiber, filling up every crevice, that every root may be in contact with soil, and the whole made quite firm as the filling up progresses. The tree, when planted, may in light soils stand from two to three inches deeper than it stood in the nursery; but in heavy clay or wet ground it is advisable to have it stand at the same height as it was before transplanting.

On account of our long, hot, dry summers, it is well to shade the sunny side of the tree, to keep borers out, with a board or shake stuck in the ground, or a piece of burlap wound loose around the tree up to the limbs, top tied loose with a string. Whitewash made out of whiting or lime will also protect the tree against sun-scald.

See back of Catalog for list of useful horticultural books we have on hand for sale.

DISTANCE FOR PLANTING

"	50	"	"	"	"	"	18	20

Rule—Square Method—Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill, which, divided into the number of feet in an acre (43,560), will give the number of plants or trees to the acre.

Rule—Equilateral Triangle Method—Divide the number required to the acre "square method" by the decimal .866. The result will be the number of plants required to the acre by this method.

FRUIT DEPARTMENT

Our Nursery Stock is the best that can be grown or money can buy, as evidenced by the First Prize given our exhibit of trees and plants in competition with all at the California State Fair, both in 1912 and 1913. Our exhibit of Fruits, Nuts, etc., also took nine first prizes and two gold medals in 1912, thirteen first prizes and two gold medals in 1913, forty first prizes and gold medal in 1914, and the grand prize for Fruits and Nuts at the Panama-California International Exposition in 1916.

All our Fruit Trees are grown on whole Seedling roots. The advantage of this in promoting the health and thriftiness of trees over others grafted on pieces or sections of roots, or budded on stocks grown from cuttings, is acknowledged by the best authorities, and is easily apparent to the most casual observer. All two-year-old trees are branched low and are stocky, having been cut down or headed back when yearlings, two feet above ground, except where noted.

All of our Apple Trees and Grape Vines are fumigated with hydrocyanic gas when dug; so are the buds, cions, and cuttings, prior to budding, grafting, or planting out in Nursery. This positively kills any insects that may be thereon, without injury to trees or vines. We have a Fumigating House, with three compartments, so that we can disinfect, at any time, either 50 trees or 10,000.

Although we quote fruit trees by height, it is to be understood that we will include in each grade any trees which are as stocky as the average of that grade, even if they do not fully attain the specified height.

Apple—General Assortment.

GRAFTED WALNUTS.

All our grafted walnuts are worked on stocks (seedlings) that have been transplanted and root pruned when one year old. This treatment gives our trees very heavy branched roots. Such trees should not be compared with grafted trees on seedlings that have not been transplanted.

Walnut—(French) Grafted low.

Walnut—(French) Grafted high.

The following "French Varieties" are grafted on Black roots at various heights ranging from 10 to 30 inches above the ground. This manner of working gives the trees Black Walnut bodies, which, with their thick, rough bark, will not be so liable to sunburn, and are, therefore, particularly valuable for use in the hot parts of the State.

This excellent fruit tree should be in every family orchard. The fruit is acid and very different from all other mulberries. It makes a better pie than blackberries, as there are no seeds and no core. Mulberries are invaluable for protecting cherries and other fruits, as birds will eat the mulberries in preference. This variety is also valuable to plant in chicken yards for shade and feed. It is practically everbearing.

ORNAMENTAL DEPARTMENT

All ornamental trees and plants are named and arranged in conformity with our new Descriptive Catalog (Semi-Centennial Edition). It is profusely illustrated, carefully written and may be depended upon as accurate. For each ornamental tree or plant it gives the botanical name, common name, native country, height attained and concise but sufficiently comprehensive description. Fruit trees are also included.

As it is practically a condensed Cyclopaedia of Horticulture for the Pacific Coast, it is well worth the price charged for it, 25 cents, but we will gladly send a complimentary copy to any customer on request.

PLEASE NOTE

Where size of box is specified, the plants have been dug and established in the box. Boxed means that the plants are still in the ground, but on account of size will be dug into a box instead of being balled. Balled plants have the ball of earth wrapped in burlap and should always be planted without removing it. Plant burlap, rope and all, just as it is.

NOVELTIES

The following are some of the late novelties, a few of which have been offered in a limited way for one or two seasons. Descriptions are condensed; for a more extended data see new Descriptive Catalog. Prices are given at proper points in following pages.

CONIFERS

PODOCARPUS nageia. Japan. Quite distinct from *P. macrophylla*. Leaves about half as long and an inch broad. Usually somewhat glaucous.

BROAD-LEAVED EVERGREENS

ACACIA cavenia. Chile. Small tree with very minute feathery leaves. Flower heads unusually large, orange yellow and intensely fragrant, surpassing any other *Acacia*.

ACACIA podalyriaefolia. Australia. The earliest *Acacia* to bloom, even ahead of *A. baileyana*. Leaves shaped like *A. cultiformis*, but larger and covered with silvery down. Flowers rich yellow.

AGONIS flexuosa. Australia. Very graceful small tree with slender, drooping branches, long, narrow leaves and numerous very small, white flowers.

ALECTRYON excelsum. NEW ZEALAND OAK. Medium-sized tree with pinnate leaves somewhat like Oregon Grape. Very resistant to drought. Will make a handsome street tree.

ANGOPHORA lanceolata. Australia. Closely related and rather similar to *Eucalyptus*, but makes a smaller tree with slender branches. Flowers white.

CORDIA francisi. South America. Rare shrub of tall growth, with dark green leaves and white, tubular flowers.

EUGENIA uniflora. Surinam Cherry. Very handsome shrub with large, glossy leaves, bearing delicious edible fruit. Highly ornamental.

FICUS ulmifolia. A "Rubber Tree" with rough, Elm-like leaves. Bears edible figs.

MAHONIA fortunei. China. Distinct species of dwarf habit. Leaflets long, narrow and pointed.

PSIDIUM friedrichsthalianum. Costa Rica. A Guava of entirely distinct appearance from the common sort. Said to bear small, pear-shaped, edible fruit. Not yet tested.

RHAMNUS purshiana tomentella. DOWNY CASCARA. California. Similar to ordinary Wild Coffee, except that leaves become thickly coated with white down.

SOPHORA tetraptera microphylla. New Zealand. An "Edwardsia" with very small leaflets and fine, slender branches. Bears large, yellow, pea-shaped flowers in drooping racemes.

SYZYGIIUM operculatum. Himalaya region. Tree or large shrub with large, glossy, leathery leaves.

VERONICA decussata variegata. Brilliantly variegated form of this popular blue-flowered *Veronica*. Originated with us.

DECIDUOUS TREES

LABURNUM vulgare aureum. GOLDEN-LEAVED LABURNUM. Same as Common Laburnum except that leaves are brilliant yellow. Very showy all season.

DECIDUOUS SHRUBS

DEUTZIA scabra candidissima. Growth vigorous and erect; leaves dark green. Flowers double and pure white.

DEUTZIA scabra plena (D. crenata rosea plena). Growth like preceding; leaves lighter green. Flowers double; white, tinged rose outside.

EDGEWORTHIA gardneri (E. papyrifera). Asia. Flowers produced in globular heads very early in spring before leaves appear. Almost as fragrant as *Daphne*, to which it is closely related. Unique and very attractive.

SYRINGA (Lilac).

Belle de Nancy. Brilliant satiny rose with white center; double. Clusters large. Very fine.

Mad. Abel Chatenay. Pure white; double; panicles compact. Free blooming.

Philemon. Very dark purple; single; panicles of small or medium size. The darkest single-flowered variety.

CLIMBERS

ACTINIDIA chinensis. Very strong growing deciduous vine. Leaves large and rounded. Branchlets covered with red hairs. Flowers white, turning yellow. Quite out of the ordinary.

BOUGAINVILLEA glabra variegata. Leaves brilliantly and freely variegated with creamy white.

FICUS pumila minima. A variety of common Climbing Fig with very tiny leaves.

MILLETTIA megasperma. EVERGREEN

WISTARIA. The most valuable novelty in climbing plants for many years. Perfectly evergreen. Flowers rosy purple, becoming nearly white. Blooms very early and stays in bloom for a long time. Seed pods also very striking.

PASSIFLORA ligularis. Peru. Leaves very large, heart-shaped and not lobed. Flowers greenish white; corona white and ruddy purple. Fruit edible.

MISCELLANEOUS

GERBERA jamesoni hybrida. HYBRID TRANSVAAL DAISY. These new hybrids run from white through straw, yellow, pink and salmon to a rich, brilliant red. Our exhibit at Spring Flower Show in Palace of Horticulture, P. P. I. E., received much favorable comment.

HIBISCUS manihot (Abelmoschus manihot). Tall-growing, herbaceous perennial. Flowers mallow-shaped, very large, bright yellow with purple eye.

CONIFEROUS EVERGREENS

This section includes only evergreen conifers. Other evergreen trees and shrubs, usually called "Broad-leaved Evergreens," are listed separately in the next division, commencing at page 20.

DECIDUOUS ORNAMENTAL TREES

Please note that all trees in this class over 12 to 14 feet tall are graded and quoted according to their diameter measured at 4 feet above the ground. As a rule, such trees have been headed back to 9 feet and have good heads. With proper handling and after-care there should be little or no loss in using these large trees.

Fortune's Yellow
 ("San Rafael", "Hester", "Beauty of Glazenwood", etc., etc.)

ROSES

It is generally conceded that we grow the best rose plants on the Pacific Coast, which is equivalent to saying that they are not equaled elsewhere.

All plants offered are two years old and practically all are budded. In all cases they have been grown from the start in the open ground, so are strong and vigorous. With any reasonable care they should bloom freely the first season.

Descriptions are greatly condensed. For more complete details, see our Descriptive Catalog.

LATEST INTRODUCTIONS

\$1.00 each; \$7.50 per 10.

BRITISH QUEEN (H. T.). Pure white, unexpanded buds sometimes flushed peach. Open flowers without any trace of yellow. Beautifully formed, with pointed center and reflexed outer petals.

CHRISSIE MacKELLAR (H. T.). Orange pink, veined carmine. Coloring entirely unique and difficult to describe. Very free flowering and richly scented. Semi-double.

C. W. COWAN (A. Dickson, 1912.) Carmine cerise about like Reine Marie-Henriette. Buds short pointed, opening rather flat. Flowers double, quite fragrant. Not of strong growth, but very free bloomer. Stems long and slender, carrying flowers erect.

DUCHESS OF SUTHERLAND (H. T.). Bright rose pink. Buds very long pointed, on strong stems. Very double. Petals veined. Strong grower.

EDITH PART (H. T.). Carmine with cham- ois, flushed pink. Petals two-toned. Very beautiful.

FARBENKONIGIN. (Hinner, 1902.) Bright carmine overlaid with silvery gloss. Color deep at base, light toward tips. Petals two-toned. Large and full. Free blooming. Very handsome.

GENERAL-SUPERIOR ARNOLD JANSSEN (H. T.). Deep carmine; large, double and well formed.

HILDA RICHARDSON. (A. Dickson, 1913.) Milk white, flushed rosy lilac at tips. Entirely different from the ordinary run of roses. Flowers are small or medium, semi-double, opening to saucer shape, with golden yellow stamens very conspicuous. Not at all adapted for cutting, but possessed of a refined, dainty elegance that with its freedom of bloom, unique coloring and delightfully rich fragrance may make it very popular as a garden rose.

IRISH FIREFLAME. (A. Dickson, 1913.) Old gold, flushed with pure crimson when fully developed. Buds are very long and slender, beautifully spiral and richly colored a deep orange red, with golden base. The open flowers are quite large, often five inches broad. A further color effect is obtained from the extremely long, wiry, violet-colored stems. Foliage is rich glossy green. Delightfully tea-scented. Remembering the prompt recognition secured by Irish Elegance, it is easy to prophesy a great future for this variety, which surpasses it in every respect.

LADY DUNLEATH. (A. Dickson, 1913.) Pale yellow with deep golden center. Not among the big, bold, striking roses, but nevertheless one of the very finest in our collection. It is surpassingly graceful and dainty at every stage. The buds are remarkably long pointed and slender, with noticeably elongated, narrow sepals. Open flowers are cupped and, as the bloom expands, the color greatly deepens. Stems are very long and slender, but strong enough to carry the flowers. Free blooming and delightfully fragrant.

LADY MARY WARD. (McGredy, 1913.) "Rich orange, shaded deeper apricot orange, with a decided metallic veneering." (McGredy.) His description was borne out in our tests and in addition we found the petals strongly veined carmine. Another perfectly unique color combination. Buds are long pointed; flowers of medium size, with pointed center and reflex outer petals, fairly double and apple-scented. Bears freely. Except for a weak stem, it is splendid in every way.

MARCELLA. (Paul, 1913.) Salmon flesh. Buds buff. Large, well formed and handsome. Growth strong and erect. Free and continuous bloomer. Good for cutting.

MRS. HERBERT HAWKSWORTH (T.). Creamy white, straw colored in bud. Open flowers globular cup-shaped with tips of petals slightly recurved. Very fragrant.

MRS. CHARLES HUNTER (H. T.). Cerise, nearly red. Stems strong. Very free bloomer.

MRS. MUIR MACKEAN (H. T.). Ruddy cerise. Buds large and very long pointed. Stems long and strong.

MRS. CHARLES E. PEARSON. (McGredy, 1913.) "Orange, flushed red, apricot, fawn and yellow." (McGredy.) Coloring may be said to be intermediate between Lyon and Mad. Edouard Herriot. Buds are pointed; open flowers reflexed-globular to nearly flat, double and faintly fragrant. Growth moderate or rather short. Stems short, but strong, carrying flowers finely. Blooms freely and has a very high coloring.

MRS. SAM ROSS. (H. Dickson, 1912.) Flesh, suffused salmon and underlaid with buff. Color hard to describe, but delicate, unique and very pleasing. Flowers cupped, with outer petals slightly reflexed. Best in fall.

MRS. WALLACE H. ROWE (H. T.). Bright "sweet pea mauve." Flowers of good size and very well formed. Growth vigorous.

MRS. CHARLES RUSSELL (H. T.). Rosy carmine with scarlet center. Color brilliant and pleasing. Flowers beautifully formed and last splendidly when cut. Stems extremely strong, with flowers always borne singly.

MRS. FREDERICK W. VANDERBILT. (McGredy, 1913.) "Deep orange red, shaded bronze apricot red" (McGredy). Here it runs more toward a salmon ground, with carmine, yellow and flesh mixed in. Buds are moderately pointed and open flowers very double, of medium size and slightly fragrant. Growth moderate and spreading. Stems short but strong.

NERISSA. (Paul, 1912.) Pink, flushed carmine; buds cream, flushed salmon. Coloring resembles Antoine Rivoire. Buds sharply short pointed; open flowers have high center with reflexed outer petals.

OLD GOLD (H. T.). Coppery orange. Semi-double. Buds long, slender and pointed. Very fragrant.

OPHELIA (H. T.). Salmon flesh, shaded rose, with chamois center. Buds and flowers beautifully formed and color enhanced by rich veining on the petals. Stems long, carrying flowers erect. Could hardly be praised too highly.

QUEEN MARY. (A. Dickson, 1913.) Creamy ground, brilliantly penciled and flushed cerise, with an underlying shade of yellow. Combination of colors is wonderful and almost impossible to describe. Buds are long and pointed, with an unusual spiral form and recurved tips. Open flowers are semi-double, loose and spreading, medium sized, fragrant and freely borne.

RAYON D'OR. (Pernet-Ducher, 1910.) Clear, bright, intense yellow. Buds are coppery

orange, slightly flushed carmine, but open flowers have a shade of yellow that is certainly quite distinct from anything else. It is shown off to perfection in contrast with the remarkable foliage, which is a deep, rich bronze green, as glossy as if varnished. Flowers are fairly large, very double, fragrant and borne almost continuously.

VERNA MACKAY (H. T.). Fawn, suffused sulphur. Buds very beautifully formed. Fragrance unusually rich.

WILLOWMERE (Pern.). Shrimp pink, shaded yellow and carmine. Somewhat like Lyon.

NEW VARIETIES

75 cents each; \$6.00 per 10.

BIANCA. (Paul, 1913.) Creamy white, tinted peach or sometimes carmine. Moderate size, buds short pointed, double. Fragrance faint. Growth and production very good. Stems long and flowers mainly come singly.

EARL OF GOSFORD. (McGredy, 1912.) Dark crimson, heavily shaded. Growth vigorous. Very fragrant. One of the deepest colored in this section.

GEORGE ARENDS. (Hinner, 1910.) Delicate pink. A large, handsome rose of solid color and good form. Widely heralded as "Pink Frau Karl Druschki," but does not look like a sport from that variety. Growth is so rampant that it could easily be trained up as a climber and maybe should be classed as such.

GEO. DICKSON (H. T.). Deep scarlet, shaded velvety crimson. Color wonderfully

rich, especially in spring. Flowers large and very full. Very fragrant. Growth extremely vigorous, almost like a climber. Moderate bloomer.

JULIET (Pern.). Outside of petals old gold, inside rich rosy red. Remarkably beautiful and striking in bud stage.

MAD. EDOUARD HERRIOT or **DAILY MAIL** (Pern.). Superb coral red, shaded yellow at base, passing to shrimp red. Flowers semi-double and variable in size, sometimes very large. Coloring absolutely unique; different from any other rose ever introduced. The freest blooming rose we grow. Won the Gold Cup offered by "Daily Mail" for best new rose and the Gold Medal of the National Rose Society of England. The greatest rose novelty ever introduced.

NEW AND SCARCE VARIETIES

35 cents each; \$3.00 per 10.

ANTOINE RIVOIRE (H. T.). Silvery flesh with salmon center. Outer petals reflexed.

ARTHUR R. GOODWIN (Pern.). Apricot, flushed salmon. Petals numerous and narrow. Very free bloomer.

BEAUTE DE LYON (Pern.). Superb coral red, lightly shaded yellow. Buds globular; saucer-shaped when opened. Entirely unique.

CHATEAU DE CLOS VOUGEOT (H. T.). Crimson center with fiery scarlet tips. Coloring magnificent. Foliage very dark green. Free bloomer.

***CLIMBING AMERICAN BEAUTY.** Cerise red. Flowers medium size, double and very fragrant. Vigorous climber. Has little resemblance to American Beauty except in color.

***CLIMBING PINK COCHET** (T.). An extremely vigorous climbing form of the well-known Maman Cochet. Flowers are identical in every respect.

***CLIMBING WHITE COCHET** (T.). A strong climbing sport from the popular White Maman Cochet. Flowers identical and borne very freely.

EDWARD MAWLEY (H. T.). Brilliant fiery red. Buds particularly fine and shaded velvety crimson. Free flowering.

FLORENCE PEMBERTON (H. T.). Creamy white, suffused pink. Large, full and beautifully formed.

GLOIRE DE CHEDANE GUINOISSEAU (H. P.). Bright vermilion red, shaded velvety crimson. Considered by many good judges superior to Ulrich Brunner.

HARRY KIRK (T.). Creamy yellow with bright amber center. Large and fairly double. Fragrance exceptionally fine. Exceedingly heavy bloomer.

HIS MAJESTY (H. T.). Vermilion. Buds large and long. Fragrance like the H. P. class.

IRISH ELEGANCE. Apricot, shaded orange and pink.

JONKHEER J. L. MOCK. (Leenders, 1910.) Carmine and flesh pink. Has the wonderful two-toned petal effect shared by but two or three others. The inside of each petal is a soft, pearly blush, while the outside is bright carmine rose. As the flower opens, the outer portion shows the former shade and the high center the latter. Each petal just as it starts to curve away from the center will show both tones in a way that is truly charming. Flowers are large, beautifully formed, very fragrant and borne on splendid, strong, stiff stems. Will rank among the best.

LADY HILLINGDON (T.). Deep apricot yellow without shading. Color does not fade and it will deepen even after cutting. New wood and foliage deep violet. The finest yellow rose to date.

LYON (Pern.). Shrimp pink with salmon center, shaded chrome yellow. Flowers often very large.

MADAME LEON PAIN (H. T.). Silvery pink, sometimes shaded salmon. Buds pointed; flowers large and cupped. Blooms freely.

MARQUISE DE SINETY. (Pernet-Ducher, 1906.) Yellow flushed orange. Buds are very deep golden yellow; pointed. Open flower cupped, with high center. Petals large and crisp. Fragrance rich. Stems very strong, but often curiously curved. Foliage very dark and handsome. Ranks very high.

MELODY (H. T.). Saffron yellow with primrose edges. Flowers medium to large; very double and delightfully fragrant. Foliage dark violet green. Stems splendid. Very free bloomer. Unusually fine in every way.

MILADY (H. T.). Crimson scarlet. Flowers large, full, well formed on strong stems.

MISS ALICE DE ROTHSCHILD (T.). Deep yellow center with lighter edges. Flowers of medium size, very full, pointed in bud and cupped when open; with a rich tea fragrance.

MRS. AARON WARD (H. T.). Yellow, tinted salmon rose. Very pale in spring, but highly colored in fall. Flowers handsomely formed and carried on strong stems.

MRS. ARTHUR ROBERT WADDELL (H. T.). Orange pink or reddish salmon. Outer petals flesh. Of medium size and semi-double. Very free bloomer.

MRS. GEO. SHAWYER (H. T.). Brilliant rose pink, almost solid color. Large, full and well formed. Especially good for forcing.

MRS. WAKEFIELD CHRISTIE - MILLER (H. T.). Rosy carmine; outer petals soft pearly blush. Buds and flowers extremely large, borne perfectly erect on grand stems. Petals two-toned. Fine in every way.

PHARISAER (H. T.). Silvery pink, faintly suffused salmon. Petals unusually large and reflexed. Heavy fall bloomer.

RADIANCE (H. T.). Soft carmine pink. Flowers large, elongated cup-shaped; very double and sweetly scented.

ROSE QUEEN (H. T.). Intense pink, slightly yellow at base. Particularly good for cutting.

SUNBURST (H. T.). Yellow, shaded coppery orange. Large, magnificently formed and richly tea scented. Color light in spring, but very deep in fall.

***TAUSENDSCHOEN** (Poly.). Delicate pink, shaded rosy carmine. Produces a great mass of bloom in spring. Branches thornless.

GENERAL COLLECTION

25 cents each; \$2.00 per 10; \$18.00 per 100.

HYBRID TEA ROSES.

Augustine Guinoisseau (White La France). White, faintly suffused flesh pink.

Avoca. Crimson scarlet.

Baldwin (Helen Gould). Rosy crimson.

Bardou Job. Velvety scarlet, shaded black.

Belle Siebrecht (Mrs. W. J. Grant). Bright rosy pink.

Betty. Coppery rose, overlaid with ruddy gold.

Captain Christy. Delicate flesh pink.

***Carmine Pillar.** Rosy carmine, single.

Chas. J. Grahame. Orange crimson.

Clara Watson. Silvery flesh with deep pink center.

***Climbing Belle Siebrecht.** Bright rosy pink.

***Climbing Captain Christy.** Delicate flesh pink.

***Climbing Kaiserin** (Mrs. Robert Peary). White, faintly suffused lemon yellow.

Climbing Mad. Caroline Testout. Clear pink.

***Climbing Souv. de Wooton.** Bright crimson.

Dean Hole. Silvery carmine, shaded salmon.

Dorothy Page Roberts. Coppery pink, suffused apricot yellow.

Duchess of Albany (Red La France). Deep rose, nearly red.

Franz Deegen. Pale yellow.

***Gainsborough.** Creamy pink with salmon center.

General MacArthur. Fiery red.

George C. Waud. Orange vermillion.

Gloire Lyonnaise. White, tinted lemon.

Grace Darling. Creamy white, tinted peach.

Grace Molyneux. Creamy apricot with flesh center.

Gruss an Teplitz (Crimson Hermosa). Rich scarlet overlaid with crimson.

Hon. Ina Bingham. Pure pink.

J. B. Clark. Scarlet, shaded crimson.

John Cuff. Carmine pink.

Joseph Hill. Pink, shaded salmon.

Kaiserin Augusta Victoria. White, faintly suffused lemon yellow.

Killarney. Flesh, suffused pink.

La Detroit. Shell pink, tinted soft rose.

Lady Battersea. Cherry crimson.

Lady Ursula. Flesh pink.

La France. Pink, tinted silvery blush.

Liberty. Crimson scarlet.

Mad. Abel Chatenay. Rosy carmine, tinted salmon.

Mad. Caroline Testout. Bright pink.

***Mad. Driout** (Striped Reine Marie Henriette). Deep rose, striped cherry red.

Mad. Jenny Gillemot. Canary yellow. Saffron in bud.

Mad. Ravary. Orange yellow, tinted flesh and creamy buff.

***Mad. Wagram.** Pink. Called Climbing Paul Neyron. Lighter in color and smaller.

Mildred Grant. Silvery white, flushed delicate pink.

Miss Kate Moulton. Pink, tinted silvery flesh.

Mrs. David Jardine. Bright rosy pink, faintly suffused salmon.

Mrs. Theodore Roosevelt. Flesh pink; outer petals creamy white.

My Maryland. Bright pink.

Perle von Godesburg. White, tinted creamy yellow.

*Varieties starred are climbers.

HYBRID TEA ROSES, Cont'd.

Prince de Bulgarie. Silvery flesh, shaded rosy salmon.
 *Reine Marie Henriette. Cherry red.
 *Reine Olga de Wurtemberg. Red.
 Rhea Reld. Crimson scarlet.
 Richmond. Scarlet, lightly shaded crimson
 Souvenir de Wooton. Bright crimson.

Souvenir du President Carnot. Rosy flesh.
 Viscountess Folkestone. Creamy pink, salmon center.
 White Killarney. White.
 Winnie Davis. Flesh pink, outer petals silvery blush.

TEA ROSES.

Beaute Inconstante. Coppery red, shaded carmine and yellow.
 Belle Lyonnaise. Light yellow, fading to nearly white.
 Bon Silene. Salmon rose.
 Bridesmaid. Clear, bright pink.
 Catherine Mermet. Pink, shading to amber in center.
 *Climbing Bridesmaid. Pink.
 *Climbing Devoniensis. Creamy white, with blush center.
 *Climbing Niphetos. Pure white.
 *Climbing Papa Gontier. Rosy crimson with carmine center.
 *Climbing Perle des Jardins. Deep golden yellow.
 Dr. Grill. Coppery yellow, tinged rose.
 *Duchesse d'Auerstaedt. Light yellow, shading to nankeen at center.
 Duchesse de Brabant. Soft rose.
 Franciska Kruger. Deep chamois, shaded peach pink.
 *Gloire de Dijon. Fawn, tinted salmon and rose.
 Golden Gate. Creamy white, tinted yellow and rose.
 Helen Good. Delicate yellow, suffused pink.
 Homere. Rosy pink over white, shaded salmon.
 Improved Rainbow. Carmine, rose and flesh.
 Ivory. Pure white.
 Mad. Chedane Guinoisseau. Clear canary or lemon yellow.
 Mad. de Watteville. Salmon white, flushed and bordered rose.
 Mad. Falcot. Nankeen, deepening to orange yellow.

Mad. Hoste. Canary yellow with deeper center.
 Mad. Lambard. Bronzy rose, tinted salmon and shaded carmine.
 Mad. Vermorel. Coppery yellow, shaded rose.
 Mad. Welche. Pale yellow with deep orange center.
 Maman Cochet. Deep rosc pink outside, but very light within.
 *Marechal Niel. Deep golden yellow.
 Marie Van Houtte. Creamy yellow, tinted rose.
 Marquis de Querhoent. Carmine on flesh or yellow ground.
 Molly Sharman Crawford. Pure white or with a faint greenish tinge.
 Mrs. Myles Kennedy. Delicate silvery white, shaded buff, with pink center.
 Niles Cochet. Cherry red on outer petals, lighter within.
 Niphetos. Nearly pure white; faintly lemon tinged in center.
 Papa Gontier. Rosy crimson with carmine center.
 Perle des Jardins. Deep golden yellow.
 Rainbow. Pink, striped carmine and buff.
 Safrano. Saffron in bud, changing to pale yellow.
 Sunset. Golden amber with faint ruddy tinge.
 The Bride. White, tinged pink on outer petals.
 White Maman Cochet. White, with outer petals blushed.
 Yellow Maman Cochet. Light yellow, edged rose.

HYBRID PERPETUAL ROSES.

American Beauty. Deep rose.
 Anna de Diesbach. Bright pink.
 Baroness Rothschild. Pale rose, tinted white.
 Black Prince. Dark crimson, nearly black.
 Earl of Dufferin. Velvety crimson.
 Empereur du Maroc. Very dark velvety maroon.
 Fisher Holmes. Scarlet, shaded crimson.
 Frau Karl Druschki. Snow white. Sometimes called White American Beauty.
 Gen. Jacqueminot. Brilliant red.
 *Gloire de Margottin. Dazzling red.
 Hugh Dickson. Brilliant crimson, tinted scarlet.

Jean Liabaud. Rosy red, shaded crimson.
 Jubilee. Deep crimson, shaded maroon.
 Mabel Morrison. White; outer petals pink.

 Margaret Dickson. White with flesh center.
 Mrs. John Laing. Shell pink.
 Mrs. R. G. Sharman Crawford. Deep rosy pink, tinted pale flesh.
 Paul Neyron. Dark rose.
 Prince Camille de Rohan. Deep velvety crimson.
 Queen of Edgely (Pink American Beauty). Sport from American Beauty.
 Ulrich Brunner. Cherry red. Borne on long stems.

PERNETIANA ROSES.

(Also see Latest Introductions and New Varieties.)

Soleil d'Or. Golden yellow, shaded nasturtium red.

*Varieties starred are climbers.

POLYANTHA ROSES.

Baby Rambler (Mad. N. Levavasseur). Practically an extremely dwarf and continuous-blooming Crimson Rambler.

***Climbing Cecile Brunner**. Salmon pink.

Climbing White Pet. White.

***Crimson Rambler**.

Etoile d'Or. Light canary yellow.

Mlle. Cecile Brunner. Salmon pink.

Perle d'Or. Golden yellow with orange center.

***Philadelphia Rambler.** Light crimson.

***Vellchenblau.** Reddish lilac, quickly changing to amethyst and steel blue. The celebrated "Blue Rose" and the only near approach to that color yet attained.

***Yellow Rambler.** Flowers are yellow in bud, but nearly white when opened.

NOISETTE ROSES.

***Cloth of Gold.** Deep yellow center, tinted sulphur toward edges.

***Gold of Ophir or Ophirie.** Reddish copper, tinted fawn and salmon.

***Lamarque.** White.

***Mad. Alfred Carriere.** Creamy white.

***Reve d'Or.** Light yellow, shaded buff.

***William Allen Richardson.** Orange yellow.

HYBRID SWEET BRIAR ROSES.

***Minna.** Creamy white.

MOSS ROSES.

Elizabeth Rowe. Bright pink.

Etna. Crimson, shaded purple.

Mousseline. White, shaded rose.

Pink Moss. Bright pink.

CHEROKEE ROSES.

***Cherokee Single White.** White with conspicuous yellow stamens.

***Pink Cherokee.** Ruddy pink.

***Ramona (Red Cherokee).** Cherry carmine.

IRISH SINGLE ROSES.

Irish Beauty. Pure white with prominent golden anthers.

MISCELLANEOUS ROSES.

Agrippina (Bengal). Rich crimson. Good hedge rose.

Austrian Copper (Austrian Briar). Rich coppery red on upper or inside of petals; yellow on lower or outside.

***Banksia Double White.**

***Banksia Double Yellow.**

***Banksia Single White.**

***Dorothy Perkins (Wichuraiana).** Shell pink.

Empress of China (Bengal). Light pink.

***Fortune's White.** Pure white.

***Fortune's Yellow (Beauty of Glazenwood; San Rafael, etc.).** Creamy yellow, shaded orange and rose.

Gloire des Rosomanes (Bourbon). Bright red. Better known in California as "Ragged Robin."

Harrisoni. Yellow, double.

***Moschata Nivea.** Single, in large clusters; white with black stamens; musky scented.

Persian Yellow (Austrian Briar). Bright yellow; small but quite double.

Sweet Briar. Pink, single flowers and richly scented foliage.

***Wichuraiana.** Small, single white with showy yellow stamens. Sometimes called Memorial Rose.

Mlle. Cecile Brunner

*Varieties starred are climbers.

TREE OR STANDARD ROSES

Scarce Varieties.

\$1.50 each.

Lady Hillingdon. Yellow.
Lyon. Shrimp pink.

Rose Queen. Pink.
Sunburst. Yellow.

General Collection.

\$1.25 each; \$10.00 per 10.

Anna de Diesbach. Bright pink.
Baby Rambler. Crimson.
Betty. Coppery rose.
Bridesmaid. Pink.
Catherine Mermet. Pink, shading to amber.
Climbing Belle Siebrecht. Bright, rosy pink.
Climbing Mlle. Cecile Brunner. Salmon pink.
Duchesse de Brabant. Soft rose.
Empereur du Maroc. Velvety maroon.
Franz Deegen. Creamy yellow.
Frau Karl Druschki. White.
Gainsborough. Pale flesh.
General MacArthur. Fiery red.
Gloire de Margottin. Dazzling red.
Gold of Ophir. Coppery red.
Gruss an Teplitz. Scarlet.
Hugh Dickson. Brilliant crimson.
Improved Rainbow. Mottled carmine, rose and flesh.
Irish Elegance. Apricot, shaded orange and pink.
Kaiserin Augusta Victoria. White.
Lady Battersea. Cherry crimson.
La France. Pink, tinted silvery blush.
Liberty. Crimson scarlet.
L'Ideal. Coppery rose.

Madame Abel Chatenay. Rosy carmine.
Mad. Caroline Testout. Pink.
Mad. Chedane Guinoisseau. Yellow.
Magna Charta. Rosy red.
Maman Cochet. Pink.
Marechal Niel. Golden yellow.
Marie Van Houtte. Yellow and rose.
Mrs. John Laing. Shell pink.
Niles Cochet. Cherry red.
Papa Gontier. Rosy crimson.
Paul Neyron. Dark rose.
Perle des Jardins. Golden yellow.
Prince de Bulgarie. Silvery flesh, shaded rosy salmon.
Reve d'Or. Yellow, shaded buff.
Rhea Reid. Crimson scarlet.
Safrano. Saffron in bud.
Sunset. Golden amber.
The Bride. White.
Ulrich Brunner. Cherry red.
White Maman Cochet. White, outer petals blushed.
William Allen Richardson. Orange yellow.
Yellow Maman Cochet. Light yellow, edged rose.

HEDGE PLANTS

The following list includes plants suitable for this purpose. Sizes and prices are shown on pages noted below:

Cupressus macrocarpa. MONTEREY CY-
PRESS 13
Taxus baccata. ENGLISH YEW..... 16
Thuya orientalis. CHINESE ARBOR
VITAE 16
Buxus. BOXWOOD (various kinds)..... 19
Cotoneaster angustifolia 21
Laurus nobilis. BAY TREE..... 25
Ligustrum japonicum. JAPANESE
PRIVET 25
Ligustrum ovalifolium. CALIFORNIA
PRIVET 25
Ligustrum vulgare. ENGLISH PRIVET.. 25
Myrtus communis. COMMON MYRTLE.. 26
Myrtus luma. LUMA..... 26

Pittosporum crassifolium 27
Pittosporum eugenioides 27
Pittosporum tenuifolium (P. nigricans)... 27
Pittosporum undulatum 27
Prunus ilicifolia. CALIFORNIA EVER-
GREEN CHERRY 27
Pyracantha coccinea. EVERGREEN
HAWTHORN 28
Pyracantha crenulata. CHINESE EVER-
GREEN HAWTHORN 28
Viburnum tinus. LAURUSTINUS..... 29
Cydonia japonica. JAPANESE SCARLET
QUINCE 38
Punica granatum. FLOWERING POME-
GRANATE 40

CATALOGS

Ornamental and Fruit Trees. Semi-centennial edition of our Descriptive Catalog, combining Fruit and Ornamental Departments. Is entirely rewritten, profusely illustrated and accurate. Being practically a condensed Cyclopedia of Horticulture for the Pacific Coast, it is of the greatest value to any one interested in trees or plants. Price, 25 cents.

Descriptive Catalog of Fruit Trees. Describes everything in the Fruit Department. Not illustrated. Price, 5 cents.

Price List. This book issued annually and mailed to all customers. Free.

BOOKS

For the convenience of our customers we have arranged to furnish these valuable books at publishers' prices, as quoted below:

California Fruits and How to Grow Them. By Prof. E. J. Wickson.....	\$3.00
American Grape Growing and Wine Making. By George Hussman.....	2.25
Roses and How to Grow Them. By many experts.....	1.75
How to Lay Out Suburban Home Grounds. By Herbert J. Kelloway, Landscape Architect...	2.50
Soils: How to Handle and Improve Them. By S. W. Fletcher.....	2.50

DECORATIVE MATERIAL

BAMBOO SHOOTS

	per 12	per 100
10 to 12 ft. long.....	\$2 00	\$15 00
8 to 10 ft. long.....	1 75	12 50
6 to 8 ft. long.....	1 25	8 00
4 to 5 ft. long.....	1 00	6 00

PALM LEAVES

California Fan Palm Leaves—

5 to 6 ft. long.....	\$1 50	\$12 50
4 to 5 ft. long.....	1 25	10 00
3 to 4 ft. long.....	1 00	8 00

Japanese Fan Palm Leaves—

3 to 4 ft. long.....	\$ 75	\$ 6 00
----------------------	-------	---------

Dwarf Fan Palm Leaves—

1½ to 2 ft. long.....	\$ 75	\$ 5 00
-----------------------	-------	---------

Date Palm Leaves—

10 to 12 ft. long.....	\$3 00	\$20 00
8 to 10 ft. long.....	2 50	18 00
6 to 8 ft. long.....	2 00	12 50

In addition to the above, we can usually supply during the autumn months branches of berry-bearing plants such as Cotoneaster, Pyracantha, Hawthorn, etc., also autumn-tinted foliage; in spring, branches of deciduous flowering trees and shrubs in bloom. Data as to available material, prices, etc., will be furnished on application at proper season.
